HUGE ALIEN STRUCTURE SPOTTED IN RYDER CRATER ON FAR SIDE OF MOON, SAYS UFO HUNTER [VIDEO]

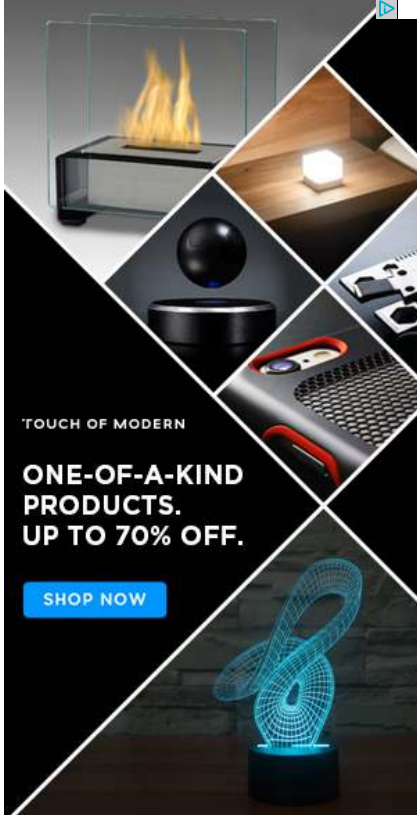

JOHNTHOMAS DIDYMUS

YouTube UFO hunter **Streetcap1** claims to have found a huge alien structure in a NASA **photo** of the Ryder crater on the lunar surface. The structure appears to be a complex of buildings with walls and roof, according to UFO hunters.

The image of the lunar surface was captured by NASA's Lunar Reconnaissance Orbiter Camera (**LROC**), mounted on the Lunar Reconnaissance Orbiter (LRO). The set of three cameras took the LROC high resolution photos of the lunar surface.

The alleged discovery is significant because **Ryder** is a circular crater on the far side of the Moon (44.5°S 143.2°E). UFO hunters have long claimed that the far side of the Moon is littered with alien structures, spaceships, and other technological artifacts left behind by alien races.

While some UFO hunters believe that the alien structures were built for temporary use by visiting aliens from faraway star systems and that the technological artifacts — including spaceships, some apparently abandoned on the lunar surface — were accumulated over millions of years by successive alien visitors to our vicinity of space, others believe they represent the remains of ancient alien civilizations that once
